CAREER OVERVIEW

Junior Data Analyst with hands-on experience in data cleaning, analysis, and visualization. Proficient in SQL, Excel, Python, Tableau, and Power BI. Skilled in developing automated reporting solutions and building interactive dashboards to support data-driven decision-making. Strong foundation in machine learning, predictive analytics, and forecasting models to identify market trends and support strategic business planning.

ACADEMIC BACKGROUND

B.Sc. in Computer Science - Madras University
Chennai, Tamil Nadu, India.
Duration: 2020 – 2023 | GPA: 90% | Distinction

Key Skills & Coursework:

- Programming: Python, Java
- Database & Web: SQL, HTML, PHP, Database Management Systems

CERTIFICATION

Data Science, Data Analytics, and Machine Learning Program

London International Studies & Research Center, UAE | NOV 2024 to MAR 2025

PROJECTS

- **Loan Approval Prediction Analysis (Python)** – Cleaned and analyzed loan applicant data using Python. Created a loan-approval prediction model with high accuracy, contributing to faster and more consistent credit-decision workflows. Improved risk assessment by analyzing key financial and demographic features.
- **E-commerce Prediction** – Designed machine learning models to forecast sales and customer purchase behavior, improving demand-planning reliability. Identified patterns in customer data that supported marketing campaign optimization.

PROFESSIONAL SKILLS

- **Programming & Databases:** Python, SQL (Oracle & MySQL), Excel
- **Data Analytics Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Data Visualization Tools:** Tableau, Power BI
- **Data Management:** Data Modeling, Data Mining, Data Warehousing
- **Machine Learning:** Supervised & Unsupervised Algorithms, Predictive Analytics.

SOFT SKILLS

- Creativity
- Problem Solving
- Time Management
- Effective Communication
- Adaptability.
